Thank you for taking the time to hear my opinion. Let me begin by mentioning that I have worked in the online design industry for over five years. In my opinion Microsoft has been an extremely productive and dynamic company determined to deliver solutions to the largest and smallest problems alike. I know the value of their innovations firsthand. That is why I feel it is important that the case against Microsoft be closed as soon as possible. We are at a point as a country and a global community that we need the innovations that companies like Microsoft offer now more than ever. The agreement addresses all of the valid concerns that initiated the action against Microsoft. Let s please move on and let Microsoft get back to strengthening the economy.
